SUMMARY

Cybersecurity and Information Technology graduate (B.Sc. Hons) with hands-on experience in system engineering, secure mobile development, and network infrastructure. Proven ability to execute enterprise-scale IT operations, including complex hardware migrations across 500+ endpoints for national utility providers. Certified in Red Hat (RH124) and Cisco (CCNA), with practical knowledge of vulnerability assessment, cryptographic protocols, and incident response methodologies. Seeking to leverage technical expertise in a SOC Analyst, IT Engineer, or Software Engineering role.

EXPERIENCE

FIELD ENGINEER

Jul 2026 - Present

Beyond2u Sdn Bhd - Kuala Lumpur, Malaysia

- Provide on-site IT support and maintenance for McDonald's outlets in Klang Valley, maintaining hardware and software systems to ensure smooth day-to-day operations.
- Commission and set up new McDonald's stores, including installation and configuration of equipment and systems.
- Deliver IT support for Tan Chong Motor, maintaining desktops, laptops, and dealership systems to keep devices running smoothly.
- Manage and resolve service tickets for both McDonald's and Tan Chong Motor, troubleshooting and fixing issues on-site to minimize downtime.

SYSTEM ENGINEER INTERN (PMO TEAM)

Mar 2026 - Jun 2026

Beyond2u Sdn Bhd - Kuala Lumpur, Malaysia

- Executed an enterprise-wide hardware refresh and data migration project for Tenaga Nasional Berhad (TNB) and the Ministry of Education (MOE), covering 500+ endpoint devices across multiple sites.
- Automated high-speed, secure data backups using Robocopy scripting, achieving zero data loss across all corporate transitions and reducing migration time by an estimated 30%.
- Provided Tier-2 technical support and coordinated directly with end-users to troubleshoot software and hardware bottlenecks, reducing average resolution time and minimizing operational downtime.

SOFTWARE ENGINEER INTERN

Feb 2023 - Jun 2023

PKINK (Perbadanan Kemajuan Iktisad Negeri Kelantan) - Kota Bharu, Kelantan

- Maintained and optimized internal corporate databases and legacy software systems, reducing system latency by identifying and resolving 15+ user-reported bugs.
- Collaborated with senior engineers across the full SDLC (Software Development Life Cycle) to test, deploy, and document new features for enterprise applications.

IT TECHNICIAN & TECH ADVISOR

Sep 2019 - Dec 2019

Monaliza (IT Retailer) - Kota Bharu, Kelantan

- Diagnosed hardware failures, performed custom PC assemblies, and optimized BIOS/system configurations for 100+ clients, maintaining a high customer satisfaction rate.

EDUCATION

Universiti Kuala Lumpur (Malaysian Institute of Information Technology) - Kuala Lumpur, Malaysia

Jul 2024 - Jul 2026

Bachelor of Information Technology (Hons) in Computer System Security
CGPA: 2.92

Universiti Kuala Lumpur (Malaysian Institute of Information Technology) - Kuala Lumpur, Malaysia

Jul 2020 - Jul 2023

Diploma in Information Technology
CGPA: 3.57

Kolej Komuniti Gerik - Perak, Malaysia

Jun 2018 - Feb 2020

Certificate in Information Technology
CGPA: 3.78

SKILLS

- Language: Dart, HTML/CSS, Python, C++, PHP, Java
- Hardware Proficiency: PC Assembly, Hardware Troubleshooting, and System Maintenance
- Kali tools: Nmap, Burp Suite, OWASP ZAP, Metasploit, Maltego, Wireshark
- Proficient in cross-platform command-line operations (Windows, Linux, macOS)
- Custom PC Build, Component Upgrades, and Hardware Diagnostic & Repair

LANGUAGES

MALAY Advanced

ENGLISH Intermediate

ACHIEVEMENTS

Gold Medal (International): PIP Learning Innovation Competition for BOARDPi-KIT (IoT STEM Framework)

Leadership: President, Student Representative Council (Led state-level technical and welfare initiatives)

CERTIFICATIONS AND LICENSES

- Red Hat System Administration I (RH124)
- Cisco CCNA: Introduction to Networks
- In Progress: CompTIA Security+ (Expected 2026)
